

APOLLO DESIGN 04

This functional but economical design really takes complete advantage of its 148m² floor area. This home illustrates flowing living areas, an open plan kitchen as well as three comfortable bedrooms with built-in robes and an outdoor merbau timber deck for entertaining. Outside the rendered block work gives this home a modern look with a colour-bond gable roof. Block work is ideal for insulation as well as its fire rating qualities. Another advantage of block work is its termite proof as well as structurally sound against cyclonic weather.

This is a perfect investment property for those seeking a low maintenance home.
